#### • What Students Said About This Workshop!

“Linda presented a ton of useful information in this workshop. I like that we went over the workshop manual and she answered all of our questions and confirmed that we understood, which is very generous. I liked that it was just two days for a couple of hours each. We got all the info in then and I didn’t bet burned out with information overload. It was perfect.”

“I learned so much in just the 4 hour presentation. Linda has a way of offering information, creating discussion, and even critique in an honest, simple and direct manner, followed up with examples. I have taken numerous workshops and classes before on parts of what was offered in this workshop, but neve on the practical aspects of grantwriting, artists statement, bio, CV and all it entails, and done with such simplicity. I love her line about working towards a “promotion.”

“Linda’s class is excellent! She demystified the grantwriting process by breaking down the submission elements into each-to-understand pieces. Lind gave concrete examples of how to write an artist statement, format a resume and website layout that would create maximum impact for an application. Included were her own tips and tricks that she has had success in using which added to the already generous information she provided. The class has given me confidence in how to assemble an application.:

“I really enjoyed this workshop. I was about a subject I really wanted to gain more knowledge on so I was motivated to actively participate. I felt like the information presented in a really good way in order to understand everything. I would highly recommend this workshop for colleagues of mine!”
