“I appreciated the personal attention that Linda provided, as well as the actionable information. My only notes are to include the use of social media in the discussion and to utilize chats during the presentation.”

“Linda is clearly very knowledgeable and took the time to pace her class beautifully as well. She definitely wanted us to learn and not just to be through the motions of “teaching.” She was very patient with us as beginners and entry level professionals, even with those of us who have never yet had hands-on experience with grantwritng and researching. A wonderful course as well worth the value.”

“Prior to taking the course I was rather excited to learning something new and immerse myself into new knowledge that I am passionate about. As the course unfolded I realized thaere is a lot of components to grantwriting and Ms. Linda was very gracious to answer every question in detail, provide resource, and take the extra mile to ensure we all understood the steps in the process. By the end of the course I felt empowered and ready to take on projects and assist others and organization is realizing their dreams.”

“Lunda a well prepared and delivered a very concise and professional presentation. The manual provided was very helpful and thorough. Linda took the time to get to know our specific goals and needs. And thoughtfully provided verbal insight as well as customized additional resources. I appreciated having enough time to ask questions and to be able to interact with the other class members. Overall, the class was very informative and engaging. I will definitely be enrolling in the six-week course to expand on the introduction. Thank you!”

“I really wanted to thank you for such a wonderful class. I am very much looking forward to submitting my own grant proposals in the near future! Thank you for giving me the info and the framework, as well as the confidence to make some good things happen for my department and my city! It is a very underserved and diverse community and I am looking forward to improving the lives of many with these grants!”
